

Let's get started, shall we?

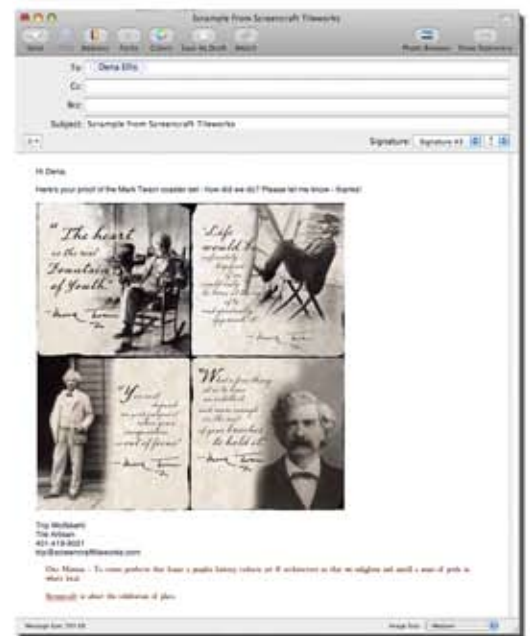

If you have digital images, email them to trip@screencrafttileworks.com. (300 dpi as JPGs, TIFFs or EPS work best, but send us what you have and we'll work with it.

We can also create digital files from our state-of-the-art scanners. We will treat your originals with the *love and attention they deserve* and get them back to you quickly.

Within one week, we'll send you a proof of the suggested design via email. We are experts at making your art work look beautiful on tile.

A physical prototype is also available upon request.

We ship within 3 days
upon approval of the artwork. Easy!

Custom Art Work: Success Story

Pierre Deux is a national chain of fine french wall paper, furnishings, and french lifestyle products. In 2006 they approached Screen-craft to develop a line of custom tiles for their catalogue & 23 locations nationwide using their proprietary *toile* patterns.

They sent us actual wallpaper swatches to work from - *yes we can!* We've taken art work from plates, canvass, old postcards, even a motorcycle.

The coasters tastefully promote the *Pierre Deux* brand and help to make the retail outlets a totally unique shopping destination
